code it WRIGHT™

ORTHOLOC®

2015 Reimbursement Codes

The following codes contained within this document are representative of possible services or diagnoses that may be associated with use of Wright products. This is not a complete listing of possible codes. Not all of the codes are necessarily to be used together. Some codes may be considered a component of another ('bundled'). Final determination of the correct or appropriate coding for services performed are made by the claims submitter/provider and should be consistent with the billing policies of the patient's health insurance program. CPT® codes and descriptors are copyrighted by the American Medical Association (AMA). CPT® is a registered trademark of the American Medical Association.

For further information, visit www.wmt.com/codeitwright

HCPCS Device Codes

HCPCS codes are developed and maintained by CMS and are used to report items such as medical devices, implants, drugs and supplies. C-codes are a special type of HCPCS code designed specifically for hospital use in billing Medicare for certain outpatient items and procedures. Other payers may also accept C-codes. S codes are used by private insurers to report drugs, services, and supplies for which there are no national codes but for which codes are needed by the private sector to implement policies, programs, or claims processing. They are for the purpose of meeting the particular needs of the private sector.

Not all implanted items have a specific HCPCS code. If desired, a miscellaneous HCPCS code can be used.

HCPCS Code	Description
C1713	Anchor/s crew for opposing bone-to-bone or soft tissue-to bone (implantable)

Reference: "List of Device Category Codes for Present or Previous Pass-Through Payment and Related Definitions", January 2015

CPT® Codes

Codes for internal or external fixation are to be used only when internal or external fixation is not already listed as part of the basic procedure.

Physician Coding

Resource based relative value scale (RBRVS) is the prospective payment system Medicare uses to reimburse physicians. Each service has relative value units (RVUs) that indicate its rank compared to all other services in terms of the relative costs of the resources required, including physician work, practice expenses, and malpractice insurance. The RVU is converted to a flat payment amount using a standardized conversion factor.

Different sites of services have different RVUs and payment:

- Facility RVUs represent surgical services provided in hospitals, ambulatory surgical centers, or skilled nursing facilities.
- Non-Facility RVUs represent surgical services provided in physician's offices.
- RVUs and payments are usually lower in the Facility setting because the facility is incurring some of the costs. RVUs and payments are usually higher in the Non-Facility setting because the physician incurs all costs there and the physician must be reimbursed for those costs.

"NA" indicates that the Non-Facility RVUs do not exist because the service is expected to be performed in a facility.
"UNL" indicates the CPT code as unlisted, and therefore non-facility or facility RVUs cannot be calculated.

CPT® CODE	Description	Facility		Non-Facility	
		RVUs	Medicare Average Payment	RVUs	Medicare Average Payment
27766	Open treatment of medial malleolus fracture, includes internal fixation, when performed	17.48	$625	NA	NA
27769	Open treatment of posterior malleolus fracture, includes internal fixation, when performed	20.72	$741	NA	NA
27792	Open treatment of distal fibular fracture (lateral malleolus), includes internal fixation, when performed	18.68	$668	NA	NA
27814	Open treatment of bimalleolar ankle fracture (eg, lateral and medial malleoli, or lateral and posterior malleoli, or medial and posterior malleoli), includes internal fixation, when performed	22.09	$790	NA	NA
27822	Open treatment of trimalleolar ankle fracture, includes internal fixation, when performed, medial and/or lateral malleolus; without fixation of posterior lip	24.03	$860	NA	NA
27826	Open treatment of fracture of weight bearing articular surface/portion of distal tibia (eg, pilon or tibial plafond), with internal fixation, when performed; of fibula only	23.80	$852	NA	NA
27829	Open treatment of distal tibiofibular joint (syndesmosis) disruption, includes internal fixation, when performed	19.56	$700	NA	NA

CPT® CODE	Description	Facility		Non-Facility	
		RVUs	Medicare Average Payment	RVUs	Medicare Average Payment
28296	Correction, hallux valgus (bunion), with or without sesamoidectomy; with metatarsal osteotomy (eg, Mitchell, Chevron, or concentric type procedures)	14.94	$534	20.53	$735
28297	Correction, hallux valgus (bunion), with or without sesamoidectomy; Lapidus-type procedure	16.66	$596	23.35	$835
28299	Correction, hallux valgus (bunion), with or without sesamoidectomy; by double osteotomy	19.44	$695	25.85	$925
28360	Reconstruction, cleft foot	23.47	$840	NA	NA
28415	Open treatment of calcaneal fracture, includes internal fixation, when performed	31.69	$1,134	NA	NA
28485	Open treatment of metatarsal fracture, includes internal fixation, when performed, each	15.07	$539	NA	NA
28505	Open treatment of fracture, great toe, phalanx or phalanges, includes internal fixation, when performed	14.47	$518	19.42	$695
28525	Open treatment of fracture, phalanx or phalanges, other than great toe, includes internal fixation, when performed, each	11.27	$403	16.07	$575
28705	Arthrodesis; pantalar	36.02	$1,289	NA	NA
28715	Arthrodesis; triple	26.89	$962	NA	NA
28725	Arthrodesis; subtalar	22.26	$796	NA	NA
28750	Arthrodesis, great toe; metatarsophalangeal joint	16.98	$607	23.48	$840

Reference: Medicare Program; Payment Policies Under the Physician Fee Schedule and Other Revisions to Part B for CY 2015 Final Rule, Adendum B: CY 2015 Relative Value Units (RVUs) and related information used in determining final Medicare payments.

See also: http://www.cms.gov/apps/physician-fee-schedule/search/search-criteria.aspx

2015 Medicare Physician Fee Schedule (MPFS) Conversion Factor: The CY 2015 MPFS conversion factor is $35.8013 for January 1, 2015 through March 31, 2015--as a result of Congress passing a "fix" to the sustainable growth rate (SGR) in April 2014. The "fix" provided for a zero percent update for services furnished between January 1 and March 31, 2015.

Hospital Outpatient Coding (APCs)

Ambulatory payment classifications (APCs) is the prospective payment system Medicare uses to reimburse hospitals for outpatient services. Each CPT code for a significant procedure is assigned to a specific APC class based on clinical and resource similarities. Each APC has a relative weight that indicates its rank compared to all other procedures in terms of the relative costs. The relative weight is then converted to a flat payment amount using a standardized conversion factor.

Multiple APCs can be assigned for the same case if multiple procedures are performed. The status indicator (SI) signifies how a code is handled for payment. Specifically, status indicator T means that the code pays at 100% of the rate when it is the only procedure or is the highest-weighted procedure, but pays at 50% of the rate when it is submitted with another higher-weighted procedure. Status indicator J1 will trigger a comprehensive APC payment for the claim, meaning a single APC will be paid while all other items and services on the same date of service will no longer generate separate payment

For Medicare, with a few exceptions, the APC payment for the procedure code is considered complete. In general, separate payment is not made for Implanted devices. Instead, payment for implants used in the procedure is included in the payment for the procedure. However, private payers may have carve-outs for implants.

CPT® Code	Description	APC	APC Title	SI	Relative Weight	Average Payment
27766	Open treatment of medial malleolus fracture, includes internal fixation, when performed	0063	Level II Treatment Fracture/ Dislocation	T	57.0073	$4,227
27769	Open treatment of posterior malleolus fracture, includes internal fixation, when performed	0063	Level II Treatment Fracture/ Dislocation	T	57.0073	$4,227
27792	Open treatment of distal fibular fracture (lateral malleolus), includes internal fixation, when performed	0063	Level II Treatment Fracture/ Dislocation	T	57.0073	$4,227
27814	Open treatment of bimalleolar ankle fracture (eg, lateral and medial malleoli, or lateral and posterior malleoli, or medial and posterior malleoli), includes internal fixation, when performed	0063	Level II Treatment Fracture/ Dislocation	T	57.0073	$4,227
27822	Open treatment of trimalleolar ankle fracture, includes internal fixation, when performed, medial and/or lateral malleolus; without fixation of posterior lip	0063	Level II Treatment Fracture/ Dislocation	T	57.0073	$4,227
27826	Open treatment of fracture of weight bearing articular surface/portion of distal tibia (eg, pilon or tibial plafond), with internal fixation, when performed; of fibula only	0063	Level II Treatment Fracture/ Dislocation	T	57.0073	$4,227
27829	Open treatment of distal tibiofibular joint (syndesmosis) disruption, includes internal fixation, when performed	0063	Level II Treatment Fracture/ Dislocation	T	57.0073	$4,227

Ambulatory Surgery Center (ASC) Coding

Medicare's prospective payment system for ASCs is based on the systems used for hospital outpatient services and physician office-based procedures. Each CPT code for an ASC-covered procedure is assigned a relative weight and flat payment amount which is then adjusted for the ASC setting.

Multiple procedures can be paid for the same case if multiple codes are submitted. The payment indicator (PI) signifies how a code is handled for payment. Specifically, payment indicator A2 means a surgical procedure whose payment is based on the hospital outpatient rate. Payment indicator G2 non office-based surgical procedure; payment based on OPPS relative payment weight. Payment indicator J8 indicates Device-intensive procedure; paid at adjusted rate. When the Multiple Procedure Discount is Yes, it indicates that the code pays at 100% of the rate when it is the only procedure or is the highest-weighted procedure, but pays at 50% of the rate when it is submitted with another higher-weighted procedure. NA indicates surgical procedures excluded from payment in ASCs for CY 2015.

For Medicare, with a few exceptions, the ASC payment for the procedure code is considered complete. In general, separate payment is not made for Implanted devices. Instead, payment for implants used in the procedure is included in the payment for the procedure. However, private payers may have carve-outs for implants.

CPT® Code	Description	PI	Multi-Procedure Discounting?	Relative Weight	Medicare Average Payment
27766	Open treatment of medial malleolus fracture, includes internal fixation, when performed	A2	Y	52.5892	$2,318

ICD-9-CM Diagnosis Codes

ICD-9-CM diagnosis codes are used by all providers, including physicians, hospitals and ASCs, and in all settings, including inpatient and outpatient. Diagnosis codes indicate the reason for the procedure and are mandatory for reimbursement. The codes shown below are those that are common with procedures using ORTHOLOC® devices though other codes may also be appropriate. The ICD-9-CM book should always be referenced for diagnostic coding.

IDC-9-CM Diagnosis	Description
714.0	Rheumatoid arthritis
714.30	Polyarticular juvenile rheumatoid arthritis, chronic or unspecified
714.32	Pauciarticular juvenile rheumatoid arthritis
715.17	Osteoarthrosis, localized, primary, ankle and foot
715.27	Osteoarthrosis, localized, secondary, ankle and foot
715.37	Osteoarthrosis, localized, not specified whether primary or secondary, ankle and foot
715.89	Osteoarthrosis involving, or with mention of more than one site, but not specified as generalized, multiple sites
715.97	Osteoarthrosis, unspecified whether generalized or localized, ankle and foot
716.17	Traumatic arthropathy, ankle and foot
718.47	Contracture of joint, ankle and foot
718.77	Developmental dislocation of joint, ankle and foot
718.87	Other joint derangement, not elsewhere classified, ankle and foot
727.1	Bunion
731.3	Major osseous defects
733.16	Pathologic fracture of tibia or fibula
733.19	Pathologic fracture of other specified site
733.44	Aseptic necrosis of talus
733.81	Malunion of fracture
733.82	Nonunion of fracture
733.93	Stress fracture of tibia or fibula
733.94	Stress fracture of metatarsals
733.95	Stress fracture of other bone

IDC-9-CM Diagnosis	Description
733.99	Other disorders of bone and cartilage
735.0	Hallux valgus (acquired)
735.1	Hallux varus (acquired)
735.2	Hallux rigidus
735.3	Hallux malleus
735.4	Other hammer toe (acquired)
735.5	Claw toe (acquired)
735.8	Other acquired deformities of toe
735.9	Unspecified acquired deformity of toe
736.70	Unspecified deformity of ankle and foot, acquired
736.71	Acquired equinovarus deformity
736.72	Equinus deformity of foot, acquired
736.73	Cavus deformity of foot, acquired
736.74	Claw foot, acquired
736.75	Cavovarus deformity of foot, acquired
736.76	Other acquired calcaneus deformity
736.79	Other acquired deformities of ankle and foot
754.52	Metatarsus primus varus
754.61	Congenital pes planus
754.62	Talipes calcaneovalgus
754.69	Other valgus deformities of feet
755.39	Longitudinal deficiency, phalanges, complete or partial
755.66	Other specified congenital deformities of toes
755.67	Congenital anomalies of foot, not elsewhere classified
823.82	Closed fracture of unspecified part of fibula with tibia

IDC-9-CM Diagnosis	Description
823.92	Open fracture of unspecified part of fibula with tibia
824.1	Fracture of medial malleolus, open
824.2	Fracture of lateral malleolus, closed
824.3	Fracture of lateral malleolus, open
824.4	Bimalleolar fracture, closed
824.5	Bimalleolar fracture, open
824.6	Trimalleolar fracture, closed
824.7	Trimalleolar fracture, open
824.8	Unspecified fracture of ankle, closed
824.9	Unspecified fracture of ankle, open
825.0	Fracture of calcaneus, closed
825.1	Fracture of calcaneus, open
825.20	Closed fracture of unspecified bone(s) of foot [except toes]
825.22	Closed fracture of navicular [scaphoid], foot
825.25	Closed fracture of metatarsal bone(s)
825.29	Other closed fracture of tarsal and metatarsal bones
825.35	Open fracture of metatarsal bone(s)
825.39	Other open fracture of tarsal and metatarsal bones
826.0	Closed fracture of one or more phalanges of foot
826.1	Open fracture of one or more phalanges of foot
837.0	Closed dislocation of ankle
837.1	Open dislocation of ankle
905.4	Late effect of fracture of lower extremities
906.4	Late effect of crushing
928.20	Crushing injury of foot
928.21	Crushing injury of ankle

Hospital Inpatient Diagnosis Related Group (MS-DRGs) and ICD-9-CM Procedure Codes

Diagnosis Related Groups (MS-DRGs) is the prospective payment system Medicare uses to reimburse hospitals for inpatient services. Each inpatient stay is assigned to a specific group based on clinical and resource similarities for its ICD-9-CM diagnosis and procedure codes. Only one DRG is assigned to each inpatient case, regardless of the number of diagnosis and procedure codes. With CC and with MCC refers to secondary diagnoses that are designated as complications/comorbidities (CC) or major complications/comorbidities (MCC). Each DRG has a relative weight which is then converted to a flat payment amount using standard operating and capital amounts.

For Medicare, with a few exceptions, the MS-DRG payment for the procedure is considered complete and payment for implants is included in the MS-DRG payment. However, private payers may have carve-outs for implants.

DRG	DRG Title	Relative Weight	Medicare National Unadjusted Payment	ICD-9-CM Procedure Codes and Descriptions
492	Lower Extremity and Humerus Procedures Except Hip, Foot, Femur with MCC	3.1873	$18,695	79.26 79.36 80.87 81.11 81.12
493	Lower Extremity and Humerus Procedures Except Hip, Foot, Femur with CC	2.0354	$11,938	
494	Lower Extremity and Humerus Procedures CC/MCC	1.5397	$9,031	
500	Soft Tissue Procedures W MCC	3.2420	$19,015	83.85
501	Soft Tissue Procedures W CC	1.6474	$9,662	
502	Soft Tissue Procedures WO CC / MCC	1.1597	$7,020	
503	Foot Procedures W CC	2.3338	$13,688	77.51 77.59 79.27 79.28 79.37 79.38 81.16
504	Foot Procedures W CC	1.5691	$9,203	
505	Foot Procedures WO CC/MCC	1.2474	$7,316	
515	Other Musculoskeletal System and Connective Tissue OR Procedures W MCC	3.2235	$18,907	77.29 79.39
516	Other Musculoskeletal System and Connective Tissue OR Procedures W CC	2.0434	$11,985	
517	Other Musculoskeletal System and Connective Tissue OR Procedures WO CC/MCC	1.7251	$10,118	
562	FX, SPRN, STRN & DISL except femur, hip, pelvis & thigh W MCC	1.3706	$8,039	79.07
563	FX, SPRN, STRN & DISL except femur, hip, pelvis & thigh WO MCC	0.7756	$4,549

Disclaimer

The coding and reimbursement information and data provided by Wright Medical Technology is presented for informational purposes only and is accurate as of its date of publication. It is the provider's responsibility to report the codes that accurately describe the products and services furnished to individual patients. Reimbursement is dynamic. Laws and regulations regarding reimbursement change frequently and providers are solely responsible for all decisions related to coding and billing including determining, if and under what circumstances, it is appropriate to seek reimbursement for products and services and obtaining pre-authorization, if necessary. For these reasons, providers are advised to contact Medicare and/or specific payers if they have any questions regarding billing, coverage and payment. Likewise, providers should contact a medical specialty society or the AMA for coding clarification. Providers should check the complete and current HCPCS and/or CPT manual to see and consider all possible HCPCS and/or CPT codes. Wright Medical Technology makes no representation or warranty regarding this information or its completeness or accuracy and will bear no responsibility for the results or consequences of the use of this information.
